

FAASTeam presents:

CFI Open Forum

At this open forum, we will discuss how to conduct an effective risk-based flight review. This interactive presentation also leads the participants in a discussion of best practices for developing evaluation scenarios. It allows FAASTeam Program Managers and FAASTeam Rep's together with CFI's and DPE's to discuss the benefits of risk-based flight reviews. Flight Instructors, Ground Instructors, DPE's as well as CFI's in training and anyone interested in becoming a CFI are welcome!

To prepare for this presentation it is suggested that you review the following documents:

AC61-98C "Currency Requirements and Guidance for the Flight Review and Instrument Proficiency Check":

"Conducting an Effective Flight Review"; https://www.faa.gov/pilots/training/media/flight_review.pdf

Directions: In Long Beach, from Cherry Ave., at Wardlow Rd. proceed East to the Stop Sign, then turn Right on AirFlite Way. Proceed past the security guard shack to the parking lot. The meeting is in the 3rd floor meeting room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
